Injured in Runaway. Entertain a Former Member.

On Tuesday evening the 19-year old son of Adrial Wales of Denmark was badly injured, and his mother considerably hurt in a runaway accident near Greenwood city. Mr. Wales, his wife and son were driving across the country from Denmark to Bryant's Pond for a visit; the horse belonged to a li-
berty stable in Biddeford, and had been brought to Denmark by his brother. Just this side of Greenwood the horse had a running fit, and dashing into the woods smashed the carriage, throwing out the occupants. Mr. Wales and the daughter escaped without injury. Mrs. Wales suffered severe cuts about the head, and the boy, whose name we are unable to learn, had a leg broken. A physician was called who arrived about midnight and attended to the injuries, and the family went home Wednesday forenoon.

Death of Prof. Thompson.

Prof. Charles B. Thompson, who had been sick and confined to the house a little more than two weeks, died sudden-
ly Friday forenoon at 11.35 from an in-
ternal hemorrhage of an artery. Though he had been quite sick he seemed to be improving and Thursday it was believed that in a short time he would be suffi-
ciently improved to go to the Hebron sanitarium for treatment. Friday he seemed to be as well as common up to within a very short time before the hemor-
rhage occurred. There are very few events that have occurred in Norway that have occasioned greater regret than the untimely loss of this young man.
Mr. Thompson was a son of Samuel P. and Mary (Crosby) Thompson of Attleboro, Mass., and was born in that city in 1881. He was a graduate of the Attleboro high school in the class of 1899 and of Amherst college in 1903 in the latter of which he was a member of the Greek letter society, Phi Delta Theta. He taught after graduation in a military academy in New Hampshire for a half year and in the Reesenden school for boys, Newton, Mass., the remainder of the school year. He entered upon the principalship of Norway high school in the fall of 1904, teaching the year with unqualified success, was re-elected and continued the term this year. He was obliged to resign the second day of the term on account of ill health, as heretofore published in the ADVERTISER.
Besides his father and mother, he leaves a brother, Herbert, who lives in Lynn, Mass., a brother, Frank, of Pen-
brooke, N. H. He also has a much older brother in Providence, R. I.
The body was taken to Attleboro on the early train Saturday morning, Supt. Chas. P. Barnes accompanying the re-
mains, and funeral services were held Monday at the Methodist church in At-
tleboro, of which church he was a mem-
ber. A large number of beautiful flow-
ers were included among them were a floral pillow from the students and teach-
ers of the high school, a wreath from the grade teachers at the high school building of last year, ferns and roses, and flowers from the members of his class in the Attleboro high school. Four of his fellow graduates from the school were the bearers.

She was a daughter of John and Cath-
erine Butterfield of Paris and was 77 years of age. About the age of 31, her family moved from the farm to Paris Hill, and after the death of her parents she and her sisters lived at home. She spent a considerable portion of the time at work in cotton mills of Lewiston and Biddeford.

able city.

The burdock in Burdock alley are turning a golden brown hue, and the fruit is rapidly appropriated by the small boy to "paste" some other boy. The alley is certainly a thing of beauty, and it is a joy to see the boys get-

case. Mrs. Sumner Parker returned from Sanford, Tuesday, where she has been for the past week with her son, R. W. Parker, during his recent trouble. She is to care for his little 10 months old son who she brought back with her.

Nash is mounting the birds.

At the residence of Mr. and Mrs. J. J. Hayden, 17 Observatory Ave., Haverhill, Mass., Wednesday, Sept. 27, their daugh-

After the ceremony a wedding break-

fully decorated with autumn flowers and leaves. The double ring service was used, the officiating clergyman being Rev. John M. Brookie of the Old Town Congregational church, who is a mem-
ber of the same fraternity at the Univer-

Saw a Moose.

In the past week several people have seen a moose, perhaps the same one, per-
haps a pair are near here, since several assert it was a cow moose, others are sure they saw a bull moose. Last Sat-
urday morning several people saw it in a field near the house of H. D. Hammond on Paris Hill. A few hours later J. F. McArdle, carrier on rural route 3, saw it at the Colby farm, some miles or more east of the Hill. It was within a few rods of him and he says it was a cow moose.
Sunday the animal was seen at several places on a line from the Colby place to the Knight farm in the south part of the town. Those who saw it are posi-
tive it was a bull moose. The nearest seen to the village was a few yards beyond W. L. Blood's. Some boys who were out gunning in ignorance of the law, fired several charges of bird shot at it, but fortunately for them, both on legal grounds and the pugnacious charac-
ter of the beast, they did not hit it. The animal coming in their direction they promptly fled, the moose going up the road a distance and turning into a past-
ure.

TO CATARRH SUFFERS.

Home Guaranteed to Cured by Noyes Drug Store or Money Refunded.

The popularity and increase in the sales of Hyomei are such that it is the only remedy made by this remedy that the proprietors have authorized Noyes Drug Store to sell every package of Hyomei under an absolute guarantee that it will cure catarrh. If it does not, the purchaser can have his money refunded by Noyes Drug Store. Hyomei is no ordinary remedy. It is the only method of treatment that acts by direct inhalation to the most remote part of the air passages, a balsamic air that destroys all catarrhal germs in the breathing organs, cleanses and purifies the blood with additional ozone, and makes a permanent and complete cure of catarrh.

The complete Hyomei outfit costs but little, and consists of an inhaler that can be carried in the vest pocket, a medicine dropper, and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows Nature in her methods of treating diseases of the respiratory organs. Breathe through the inhaler for a few minutes four times a day, and your catarrh is cured. That's all.

If not cured, Noyes Drug Store will refund your money.

A. F. Lewis Visits Concord, N. H., One of His Boyhood Homes.

Last week, A. F. Lewis made a visit to Concord, N. H., his boyhood home for four or five years in the early thirties. He was much impressed with the great changes that have taken place in the town since his residence there, and with the modern, progress ve spirit everywhere visible since his last visit to the place on the occasion of the dedication of the Webster statue in 1880. He noticed only one building now standing in the business section of Main street that was there when he went to Concord in 1850. As he went from the station on to Main street, a feeling of homesickness came upon him, for nothing looked natural, and he could easily enter into the feelings of Rip Van Winkle after he returned from a twenty years' absence to his old home.

While there Mr. Lewis took in the State Fair, and called upon many of his old friends, among them being Judge Sylvester Dana, now in his ninetieth year, an old habitue of Fryeburg and brother of the late Mrs. Dr. Ruel Barrows, Hon. Jos. B. Walker, whose father attended Fryeburg Academy a hundred years ago, Major Henry McFarland, Mr. and Mrs. Hazen Bradley, Annie and Edward A. Moulton and wife, the two former, students of Fryeburg Academy, Calvin C. Webster, Edison C. Eastman, W. John and Thomas Stewart, (the latter four being the only men engaged in trade there fifty years ago), Miss Lucy, Jos. Sleeper, Miss Mary Dole, her brother Richmond and wife, Geo. Woodward, Mrs. P. B. Cogswell, daughter of the late Hon. Parker Pillsbury, and wife of Mr. Lewis' dear old friend, the late Mayor of Concord, Mrs. Geo. A. Blanchard, (whose late husband was a student at the Academy here 65 years ago), and her daughter Grace of the city library, and his old friend, Augustus Harris, who gave Mr. Lewis much pleasure by

HAPPY WOMEN.

Wouldn't any woman be happy, after years of backache suffering, Days of misery, nights of unrest, The distress of urinary troubles, To find relief and cure?

No reason why any reader Should suffer in the face of evidence like this:

Mrs. Almira A. Jackson, of East Front St., Traverse City, Mich., says: "For twenty years I was doctoring for kidney and liver trouble, but without benefit. Just before I began using Doan's Kidney Pills I was almost paralyzed. I could hardly stand on my feet because of the numbness and lack of circulation. Had a knife been thrust into my kidneys the pain could not have been more intense. My sleep was disturbed by visions of distorted figures. The kidney secretions were annoying, irregular, and I was tortured with thirst and always bloated. I used seven boxes of Doan's Kidney Pills. The bloating subsided until I weighed 100 pounds less, could sleep like a child and was relieved of the pain and the irregularity of the kidney action. My circulation is good and I feel better in every way."

A FREE TRIAL of this great kidney medicine which cured Mrs. Jackson will be mailed on application to any part of the United States. Address Foster-McBurn Co., Buffalo, N. Y. For sale by all druggists; price, 50 cents per box.

Those Who Go Away.

Touching this question, the Bangor News says:

Now and again a gray-haired old chap returns from some big city in the west and visits his old home in Maine, whereupon every resident of his native village turns out and pays him high honors. The local paper has a talk with "our illustrious visitor" and gives him a column of pure reading matter next to an advertisement. The big men in the community get up a reception and a public dinner, and the caller is feted and lauded and lionized until he feels glad to get back to business. And for years thereafter whenever the place is disparaged or falls into disfavor, this same eminent man, who has moved away and made himself rich, is dragged in and cited as a sample of what the village soil is capable of producing.

No matter what happens to any other person, the community is said to be disappointed because it at one time reared a single specimen of the human species, who went away, grew rich and lived to show himself before his envious playmates in the flesh.

But we are never told anything about the failures who have gone forth from the village and made a sad mess of life. The local paper does not give any spread head to the fact that the contents of the coffin that arrived with red-chalk marks on it were once the belle of the community, who having vanquished the hearts of the buccolic swains, went to the big cities for new worlds to conquer, and having fought as long as she could, gave up the struggle, went to the bad and ended her engagement in death in a charity hospital.

The leading citizens never open the town hall to give a public reception to the boy, who departed in his youthful manhood and who came back a broken tramp. Nobody mentions the son of the deacon, who thought the village too small for him and emigrated in disgust, only to bring up in State's prison. And no memorial tablet in the cemetery marks the resting place of the youths who, having given the best of their lives to struggling in far lands, came home to regret their past under the family roof. We have plenty of plaudits for success won by any method, but even the tears of charity are denied to such as have striven and lost.

DO NOT EXPERIMENT

There are probably a dozen different kinds of Ranges for one to pick from in our local market and they all will work well, some better than others.

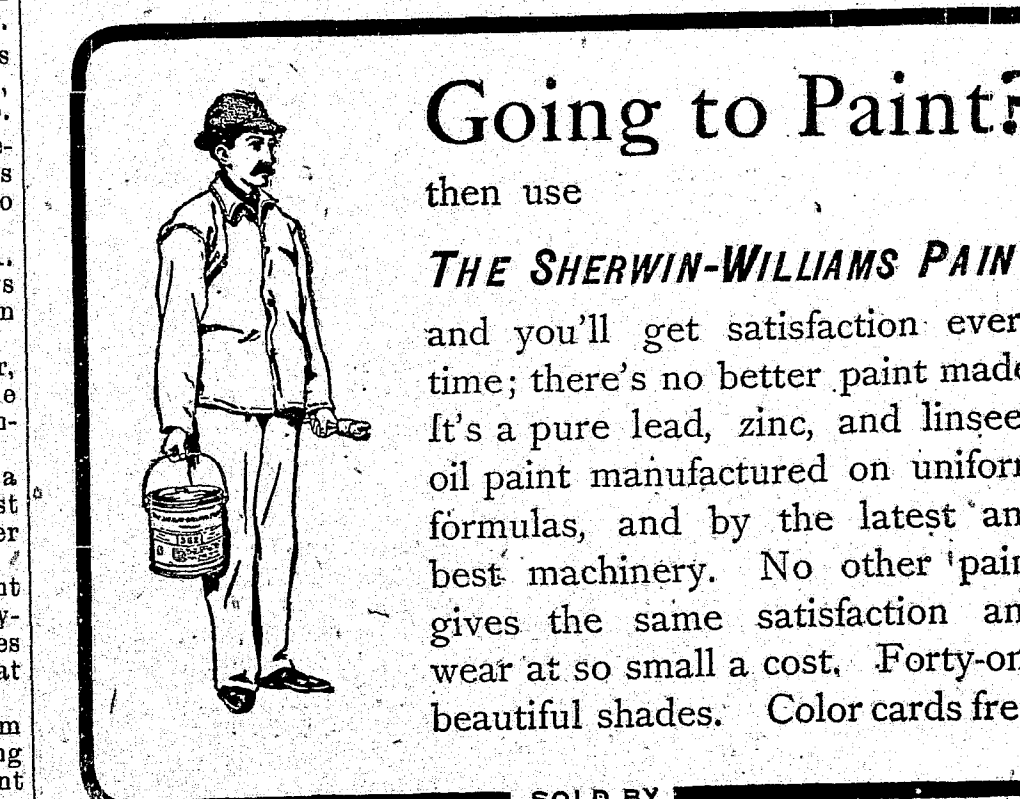

The main point to be looked after is that they will work well in your location. If you buy a new Range and it bothers about draft, either smokes or will not bake well, the dealer or manufacturer will tell you at once that your chimney is poor draft, never for a minute allowing any trouble with the Range, but you who have used a Range for twenty years in the same place have no patience with such talk, what you want is a Range that will work well in your place.

All Ranges will work all right with a strong draft, but all will not work well in every place. What we want is a Range that will work well anywhere, in any situation one would expect to use it in.

Our Ranges must adapt themselves to the conditions found when set up. I have a line of Ranges, both large and small, that will meet these conditions. Call and see them.

An early morning wedding occurred, Wednesday, at the parsonage of the Park street Methodist church, Lewiston, when the pastor, Rev. F. C. Norcross, united in marriage John O. Widder of Hartford, and Catherine L. Oldham of Auburn teacher. The bride was becomingly gowned in a traveling dress of blue. Northern Cumberland Fair.

The Northern Cumberland Fair opened up as usual on Tuesday, Sept. 26, with a cold raw wind which continued throughout the day. Exhibitors in the Hall were small in the ladies department, owing to the weather, but the display of vegetables was quite large. Attendance to the grounds was small, but on Wednesday, the second day, although the weather looked bad, by 10 o'clock there was a much larger attendance than there has been of late years on the last day of the fair, and as it still grew warmer they began to enjoy themselves. The remark was made several times that if the society should hold a fair in July, there would be a snow storm. I noticed on the grounds Oute's merry-go-round. Fakirs were scarce. C. J. Maxfield, Edes Falls, sold cigars, candy, soft drinks and fruit. Llewellyn Cream, Twitcomb Bros., Norway, sold fruit, peanuts and candy, said they had a big trade. Bridgton fruit company sold peaches and other fruit.

Charles H. Jackson, of Naples, run the dining hall in the exhibition building, had plenty to eat and were well patronized.

HARRISON.
Corn Shop Notes.
The corn shop season closed Saturday, Sept. 30. The crop has been a good one, about 70,000 cans have been put up. There has been a full crew at work most of the time in large numbers, several parties tending on the grounds.

On Friday one young lady had her pocketbook stolen as was supposed and Constable Brown was sent for, but as the sun was not large it was thought best by the other hucksters to make up the loss rather than have any further trouble.

Thoughtless and Selfish.
Clarence Merrill's horses took fright at a large ant, last Sunday, breaking the harness, wagon pole and one of the seats. By skillful management Mr. Merrill prevented the horses breaking away. The party in the auto drove off without waiting to see if the finest foundations got to get home with or assist in any way. Pretty good specimens of human "hogs" in our minds.

Dr. Sylvester has purchased a new automobile.

The Congregational Sunday school observed Rally day on Sunday, Oct. 1.

Mrs. Fitzgerald and family, of Medford, Mass., are visiting her mother, Mrs. Lakin.

Ernest Moore, who is at the Dudley Art School in Boston, made a visit at his home here.

M. E. Lakin has gone to Sandwich, Ill. to visit his uncle, Bill Noble in driving the cream team.

We are happy to think that Mabelle Wyman is gaining and hope to see her well again soon.

The Baptist pastor of the village church exchanged with our pastor last Sabbath and gave us an excellent discourse, one long to be remembered by many.

Since the cold wave last week the weather has been unusually warm and pleasant, and our farmers have improved the time gathering in their crops, which are very good if the spring was cold and backward.

LOOKER'S MILLS.

Mrs. Susan K. Libby, who has been with her son, Leroy Cole, at South Paris, for the past year, passed away last Sunday, and was brought here for burial, Tuesday. Services were held at the Union church, Rev. A. D. Colson officiating. The many beautiful flowers sent by relatives and friends were silent testimonials of regard for aunt Susan.

The spool mill started up again Monday morning, after a two weeks shut down.

Mrs. Ruth Young was in South Paris, last week, helping to care for Mrs. Susan Libby.

Mrs. Will Bean and two children were the guests of Mr. and Mrs. C. K. Fox, at Bethel, a few days last week.

Committed Suicide.

Mrs. Lelia Parker, wife of Ralph T. Parker, of Sanford, committed suicide Wednesday by jumping off a bridge into the Mousam river. Her body was found after an extended search. Despondency is given as the cause of the woman taking her own life.

Wednesday morning, Mrs. Parker got up at the usual time and got breakfast for her husband. She told him when he was ready and then left the house between 8 and 9 o'clock. Mr. Parker supposed that she had gone out to see some of the neighbors and sat down and ate his morning meal without any delay.

After a time she did not return and he became uneasy in regard to her and Thursday the body was found floating in the river.

Mrs. Parker was 22 years old and leaves a 10 months old baby. Previous to her marriage four years ago she had lived with her grandfather, William L. Ross, who is now in Newton, Kansas. Her father is at present in Alaska but has not been heard from for some time.

Mr. Parker is a shoemaker by trade and during the summer worked in Lynn, Mass. Mrs. Parker had been in Sanford most of the time except when at Norway on a short visit. From Norway she returned a few days ago.

Prof. Sargent's Sermon.

Prof. W. E. Sargent, of Hebron, preached at the Congregational church, Sunday morning. It was as he said a talk. He talked as he talks to his boys and girls at Hebron Academy, and one could not help having better thoughts after listening to his earnest appeal to the better self. Prof. Sargent has been principal of the Hebron Academy thirty years, and before that he was in the prime of life. He has made Hebron school a school such as any man might be proud of, and the young people he has helped by his example and advice as well as by the culture derived from their studies towards making a success of their lives speaks volumes for his life work.

The principal thoughts in his sermon were always in the presence of God, whether our thoughts are unexpressed or expressed in words or acts, God knoweth them. Also with all our learning and knowledge, and advancing years we should cultivate the simplicity of childhood. Look at nature and things in the pleasant way children have of looking at things,—the fresh cheerful way that takes care of the most earnest, and it is one of the chief charms of children. To become as a little child.

The show was mind reading and hypnotism and were quite well done. Two men gave a very fair exhibition of fancy bicycle riding and on the whole a very good show was given.

A Common Lie.

The commonest lie for paint is: "A gallon covers 300 square feet, two coats." It does and it doesn't; depends on the paint; the old paint; and the painter; all three.

It is true of Devoe with a margin. Devoe is too thick for some jobs; the painter will add some oil, sometimes not always, especially in cold weather. Mr. Albert Page, Fairfield, Me., computed Devoe for his house (300 ft. a gallon, two coats) at 40 gallons; had 18 gallons left.

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the use of the Sennell's Ear Cure. Deafness is caused by a diseased condition of the mucous lining of the Eustachian tube. When this tube is diseased, it is entirely closed, and deafness is the result, and unless the inflammation is taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous lining of the Eustachian tube.

We will give One Hundred Dollars for any case of deafness cured by Sennell's Ear Cure. Circulars free. J. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c.

In the Mineral Belt.

There is a mineral belt in the state of Maine, wherein is to be found all manner of semi-precious stones and this section is within the belt. This strip is 15 or twenty miles wide and extends from Newry, Andover and Byron, down to Casco Bay. This has been called the lepidolite strip because this mineral, or lithia mica, as it is sometimes called, is always associated with tourmalines, which are the chief gem minerals for tourmalines have been found in Maine for the past 50 years. The most noted deposit of them is at Mt. Mica, Paris, where thousands of dollars worth have been taken out. These gems have also been found in the towns of Newry, Andover, Rockland, Byron, Hebron, Norway, Peru, Greenwood, Auburn, Minot and Poland. The colors of these stones are pink, white, green; blue and yellow (the latter are very rare). The blue stones resemble the sapphire, and the green varies in shades from very light to almost black.

Quartz is almost always associated with tourmalines and many times make fine gems, especially if colored. Smoky quartz makes an attractive gem. It is smoky-topaz and in Scotland the caligorn stone. An enormous pocket of this was found at Hatch's Ledge a few years ago.

One of the most valuable stones, to be found in this vicinity is the aqua marine, a beryl. This stone is as well as the tourmaline—in short is only 2 degrees softer than the diamond—and sell for about \$15 per carat. One found at Stoneham cut 118 carats and sold for \$30,000. These stones vary in color from white to blue-green, and berris are also found, but are found occasionally rare stones. Green and white beryls are found at Mt. Apatite in the edge of Auburn.

In fact, Mt. Apatite is a famous deposit of minerals as well as the locality all around it. It received its name from the presence of the pink, green and blue stones found there. Apatite is not a gem stone, as it is too soft, but its rarity gives it value. 3000 loose crystals of this mineral were found near by in one pocket on the Pittsfield place near by. This collection was bought by Harvard College, which has issued a 20 page pamphlet on the find. All these mines are being worked for tourmalines.

From the little Androsocoggin Elver from Mt. Apatite, in the town of Poland, is the mine of A. R. Berry. Here are found pink, green and blue tourmalines; also a rare mineral found nowhere else in Maine—Japis lazuli, a pretty blue stone. In connection with this mineral is also found rhodochrosite, of a yellowish pink color. Specimens of all these can be seen in the collection of minerals at the Maine building, Poland Springs.

This Berry mine is run primarily for feldspar. This is used in the manufacture of china ware. Most of this product goes to Cincinnati, but there is a mill where it is ground to powder at Littlefield, in Auburn. Mr. Berry has a contract to deliver 100,000 tons of feldspar at this mill per year. He is getting out about 5 tons daily. This feldspar business is getting to be quite a large business in this section. Beside that being mined at the Berry ledge, about 10 tons is being taken out daily at Mt. Apatite. Several notable fact is that business is not at its height, for there are tons of feldspar in the near vicinity of Mechanic Falls, Minot, Oxford and Hebron, to say nothing of that further up the line of the two railroads. It is not among the impossible things of the near future that there may be a dish factory in this vicinity.

Garnets are quite common, but few are found suitable for cutting. They are found in small quantities in several places in Minot. In the east there is a ledge full of cinnamon garnets.

A few fine amethyst crystals have been found on the Ellis farm, White Oak Hill, Poland. Amethysts of very rich color are found in quantity.

While this particular vicinity seems to be chosen the home of choice minerals there is one thing not yet found here, and that is turquoise. It has however been found in one place in the state and that is Gondsboro.

John F. Barrett.

John F. Barrett died at his home in Portland, Friday, after a long illness with blood poisoning.

Mr. Barrett last spring in some manner unknown to him, cut the little finger of his right hand very slightly. Nothing was thought of the scratch until it began to pain him considerably, and finally a physician was called. By this time blood poisoning had set in and Mr. Barrett was sick for a long time.

Later it was decided that the finger must be amputated and this was done and he was apparently getting well again when the poison once more made its appearance and could not be checked.

Mr. Barrett was born at Sumner 55 years ago. He went to Portland when comparatively young and associated himself with O. K. Gerrish in the nursery business. He represented this concern on the road for a long time, and a year ago when he went into the office for a long time he had some of the best of trotting stock. Going out of the horse business he moved to Washington avenue and entered the real estate and building stone business, building up a large trade.

Mr. Barrett is survived by his widow, who was Mattie L. Cheney of North Livermore. They have one son, Carl C. Barrett, for several years connected with the ticket office at the Union station, and now in the passenger department of the Maine Central railroad. Mr. Barrett is survived by several brothers and sisters, he being the oldest of a family of nine, two are now living. They are Charles of Athol, Oregon; Frank, on the coast; Barrett homestead at Sumner Hill; Lizette E. Harriman of Minneapauken, North Dakota; Fred R. of the Union station ticket office, Portland; Gertrude A. (Annie) of South Woodstock; and John Gilbert, now living on the farm at Sumner.

Four Facts For Sick Women To Consider

Lydia E. Pinkham's Vegetable Compound Has an Unequalled Record of Cures—Mrs. Pinkham's Advice Is Confidential, Free, and Always Helpful

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful menstruation, leucorrhoea, displacements of the uterus, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

FOURTH.—Every ailing woman in the United States is asked to accept the following invitation. It is free, will bring you health and may save your life.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

Had an Awful Time.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured William A. Colic, it is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain, and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—Sam H. Gwin, traveling salesman for Concord Nursery, Concord, Ga.
